- Overdue Risk Assessment
James Knight • May 2023
- Site Inspection Report
Erin Reed • May 2023

Alerts:

- 14 operatives have qualifications expiring shortly.
- You have a new safety briefing to review by tomorrow.

Agenda

1. Introduction
2. HSE Perspective: Dust Exposure & Silicosis
3. Practical Controls & Good Practice
4. Other Current Topics
5. Q&A

Introduction

Speakers

Mark Lisgo

Managing Director,
Ctrl Hub

John Heslop

HM Inspector of Health and Safety,
Health and Safety Executive

HSE Perspective: Dust Exposure & Silicosis

Scale of the issue

Health impacts

Recent HSE campaigns / inspections

Legal duties

Practical Controls & Good Practice

- Hierarchy of control: elimination, substitution, engineering controls, RPE.
- Monitoring & measurement of dust levels.
- Training and behavioural compliance.
- Record-keeping and audit trails

Form submissions

Single Day Risk Assessment

John Smith • June 12th

Team Timesheet

Oliver Taylor • May 28th

HAVS

Adam Giles • May 21st

Site Specific Risk Assessment

Abbie Hawkins • April 24th

Supplementary / Wider Topics

- Other HSE priority health concerns: noise, fatigue, musculoskeletal disorders.
- Mental health and stress as part of the "health" in health & safety.
- Digital transformation in compliance – how technology helps meet HSE expectations.
- Emerging risks: e.g. engineered stone, new materials, and occupational exposure limits.
